New York, NY 10001

CONSTELLATION: WOMEN'S INVITATIONAL SMALL WORKS SHOW brings together 49 artists working across metal, fiber arts, photography, drawing, painting, ceramics, printmaking, mixed media and video to create a constellation of beliefs, attitudes and values as visualized by a range of established and emerging women artists from across the country and abroad.

Small artworks exhibition provides a personal experience unmatched by bigger pieces and invites a different kind of interaction; demanding close scrutiny and fostering an intimate viewing experience. Small artworks challenge perception and provide entry into thinking about bigger subjects through the reward of a bantam detail or illuminating a larger understanding. "Small Things Start Us in New Ways of Thinking" - V.S. Naipaul
